DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 - 2, drawn to a method of producing a substrate containing polyethylene glycol and a substrate containing reacted polyethylene polymer, classified in class 442, subclass 327.
- II. Claim 3, drawn to an apparatus (production line, equipment and hardware) for creating the substrate, classified in class 8, subclass various.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as apparatus and process and product made by process.

The inventions in this relationship are distinct if either or both of the following can be shown: (1) that the apparatus as claimed is not an obvious apparatus for making the product and the apparatus can be used for making a different product or (2) that the product as claimed can be made by another and materially different apparatus (MPEP § 806.05(g)). In this case the apparatus as claimed is not an obvious apparatus for making the products and the apparatus can be used for making a different product such as a wet wipe. It should be noted that claim 3 is **very broadly** claimed and virtually any product can be made by a single, integrated production line with various equipment and hardware.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 1771

4. A telephone call was made to August 7, 2003 on John Artley to request an oral election to the above restriction requirement, but did not result in an election being made.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
